PROFESSIONAL EXPERIENCE

Automation Developer / Solutions Engineer (Co-op)

Jan 2025 - Aug 2025

Ministry of Public and Business Service Delivery and Procurement (MPBSDP)

Toronto, ON

- Led requirements discovery sessions with internal clients to analyze business processes and identify opportunities for automation and workflow optimization
- Architected and deployed Power Platform automation solutions (Power Apps, Power Automate, SharePoint) to digitize internal workflows
- Led development of enterprise Power Apps solutions that centralized data collection and reporting across departments
- Delivered end-to-end automation solutions for multiple teams, reducing manual processing and improving operational efficiency

Automation Developer (Co-op)

May 2024 - Aug 2024

Ontario Ministry of Transportation (MTO)

Toronto, ON

- Collaborated with program teams to analyze business processes and design Power Automate workflows to streamline internal operations
- Developed Power Apps forms integrated with SharePoint to automate data collection and approval routing
- Prototyped Power Platform applications supporting departmental digital transformation initiatives

Junior Technical Analyst (Co-op)

Sept 2023 - Dec 2023

Ontario Ministry of Transportation (MTO)

Toronto, ON

- Developed a Python-based analytics assistant enabling natural-language queries and automated data retrieval from internal CSV datasets
- Implemented text-to-SQL pipelines using Azure OpenAI, enabling non-technical stakeholders to retrieve insights from PostgreSQL databases through conversational prompts
- Secured API key and project budget through presentations to shareholders and management
- Implemented prompt-engineering techniques to improve response accuracy and reduce API costs
- Conducted model evaluation and fine-tuning experiments to optimize generative output for analytical reporting

EDUCATION

Bachelor of Computing Honours, Computer Science (Co-op)

Sept. 2021 – Apr. 2026

University of Guelph

Guelph, ON

- Relevant Courses: Discrete Structures, Computer Networks, Software Engineering, Parallel Programming, Operating Systems, Computational Intelligence (Deep Learning & ML), Theory of Computation

Data Analytics Professional Certificate

Jul. 2023 – Dec. 2023

Google

Coursera

- Demonstrated hands-on experience with data cleaning, data visualization, project management, interpreting and communicating analytical findings

PROJECTS

Image Classification with Deep Neural Networks | Python, PyTorch, Scikit-learn, Jupyter Notebook (2026)

- Built and trained MLP and convolutional neural networks (CNNs) for CIFAR-10 image classification using PyTorch, implementing data preprocessing, model training, and performance evaluation
- Implemented training pipelines using PyTorch with cross-validation, hyperparameter tuning, and performance evaluation metrics
- Applied k-fold validation and learning rate experimentation to improve model generalization

Portfolio Website | JavaScript, React.js, HTML/CSS (2023)

github.com/rjnvr/portfolio-website

- Developed a responsive portfolio website, implemented EmailJS API to build an interactive contact form on the web page for convenient contacting

TECHNICAL SKILLS

Languages: Python, C/C++, JavaScript, Java, SQL

Frameworks & Libraries: React.js, Streamlit, Pandas, NumPy, Axios

Machine Learning: PyTorch, Scikit-Learn, CNNs

Tools & Platforms: Git, SQL Server, Azure DevOps, Power Automate & Apps, SharePoint, Azure OpenAI
